

Sample Transfer Plan

Area of Focus: *Music Therapy*
Associate in Arts (AA) transfer degree
MUSC courses are offered at the Quad Cities campus only

This Sample Transfer Plan is for students intending to major in Music Therapy after transfer, but who have not selected a transfer institution. Students who have a specific transfer school in mind should work with BHC and transfer school advisors to ensure the transfer school's requirements are met.

Music therapy is the skillful use of music to promote, sustain, and restore physical and emotional health to people in varied care facilities and homes. Music therapists provide these music experiences to help patients, special needs students, older adults, and others improve in all functional areas of life. Four-year degree programs in Music are complex and highly structured, making careful preparation and course selection in the first two years essential. Students are urged to closely follow the recommendations below, and consult often with music faculty or an advisor. Prospective students are strongly encouraged to speak with music faculty before enrolling in music studies. Most music programs at 4-year institutions will require an audition and placement exam in theory for admission.

60 total credits required for AA degree (General Education + Electives)		

Non-Western studies graduation requirement. To graduate with the AA degree, include at least one non-Western studies course. The course can simultaneously fulfill a general education requirement in humanities, fine arts, or social and behavioral science, or be taken as an elective. Choose from ANTH 100 or 102; ART 285 or 286; ENG 217, 218 or 219; HIST 222, 141, 142 or 151; HUM 102; IS 200; or MUSC 158.

Students pursuing Music will often complete more than the 60 credits for graduation in order to prepare for transfer school auditions.

Degree Timeframe:

- Students who complete an average of 15 college-level credits in four consecutive fall and spring semesters could complete the degree in two years. Students determine their own pace and progress and should consider their work and personal commitments, course difficulty, course pre-requisites, and possible need for additional courses determined by placement assessments. Advisors are available to discuss credit load and schedules appropriate for student goals and circumstances.
- Students transferring before completing the associate degree should discuss [Reverse Transfer](#) with their BHC advisor. Black Hawk College will evaluate your college or university work to determine if those credits will fulfill the remaining requirements of the associate's degree.

Advising Notes:

- See the current [BHC Catalog](#) for all IAI course codes, course descriptions, pre-requisite information, and complete graduation requirements to earn the degree. The area of focus is not stated on student transcripts.
- This guide is not a substitute for advising. All students are encouraged to connect with their assigned BHC advisor each semester.
